Call for Papers
Journal of Systems and Software

- Special Issue on Software Dependability -

General Information

Two international events were held as satellite workshops under the umbrella of the 19th IEEE International Symposium on Software Reliability Engineering (ISSRE 2008) on November 11, 2008 at Seattle/Redmond, USA:

- The First International Workshop on Software Aging and Rejuvenation (WoSAR 2008) provided a forum for researchers and practitioners to present their work on theoretical and experimental aspects of the software aging phenomenon as well as its mitigation via software rejuvenation techniques.

- The First International Workshop on Dependable Software Engineering (WDSE 2008) provided a forum for researchers, practitioners, suppliers, utility and regulatory bodies from different safety communities to share and discuss ideas, trends, experiences and concerns in the field of software engineering for safety-critical or mission-critical systems.

We invite the authors of papers accepted for these two workshops to submit extended versions of their papers for a Special Issue on Software Dependability of the Journal of Systems and Software.
Submission Information

All manuscripts and any supplementary material should be submitted via the online submission and peer review systems at http://ees.elsevier.com/jss. Follow the submission instructions given on this site. Please select the article type as “Special Issue: Software Dependability”. All manuscripts should comply with the journal's Guide for Authors. Please refer to the following site:

The manuscripts submitted for the Special Issue of the Journal of Systems and Software need to be significant extensions of the papers accepted for WoSAR 2008 and WDSE 2008; as far as size is concerned, all workshop papers need to be extended by at least 30 percent.

Important Dates

January 15, 2009: Submission deadline
March 4, 2009: Notification of decisions in the first round of reviews
March 31, 2009: Revision due in the first round of reviews
April 20, 2009: Revision due in the second round of reviews
April 30, 2009: Final notification of decisions
Summer of 2009: Expected publication date (subject to JSS editorial calendar)

JSS Editor-in-Chief

Hans van Vliet

Guest Editors for the JSS Special Issue on Software Dependability

For WoSAR:
- Michael Grottke, University of Erlangen-Nuremberg, Germany, Michael.Grottke@wiso.uni-erlangen.de
- Chandra Kintala, Yahoo!Labs, India, kintala@yahoo-inc.com

For WDSE:
- Doo Hwan Bae, Korea Advanced Institute of Science and Technology, Korea, bae@salmosa.kaist.ac.kr
- Bjørn Axel Gran, Institute for Energy Technology, Norway, bjorn.axel.gran@hrp.no
